

Peach Suite Pro AI Privacy & Data Protection

Business Coach Promise

Our AI works for you. Your business data remains yours. Business Coach AI uses your information only to help you run a stronger business.

Information AI May Use

Business profile, business type, services and pricing, retail products, calendar statistics, revenue trends, inventory summaries, marketing information, and business goals.

Information AI Does Not Need

Client names, phone numbers, email addresses, medical information, payment card information, passwords, banking credentials, or other sensitive information unless explicitly authorized.

Privacy Controls

Owners can enable or disable AI and choose which categories of business information AI may use.

Security

Encrypted communications, secure API credentials, minimum-data principle, and no hidden back-door access.

Commitment

Peach Suite Pro will continue to design Business Coach AI around privacy, transparency, and owner control.
